OPEN SOURCE STORAGE

MEDIA STORAGE PLATFORM

Looking for a data storage solution to safely store your important history? MediaRight can work with OSS to help with a solution that best fits your needs.

OPEN SOURCE STORAGE (OSS)

PROVIDING POWERFUL ARCHIVING SOLUTIONS

Open Source Storage (OSS) provides end-to-end multimedia storage technology for digital preservation, securing and empowering your media assets to move seamlessly across disk, tape, and cloud storage from a single point of control.

OSS has been trusted for over 20 years to provide powerful archiving solutions for the media production & broadcasting industry. Its archiving solutions deploy cost-effective storage hardware with non-proprietary software technology, giving customers secure long-term preservation coupled with the freedom needed to adapt and evolve scalable solutions for its media asset workflows.

OSS TECHNOLOGY

PRE-CONFIGURED SERVERS AND STORAGE MEDIUMS

OSS VAULT

MEDIA ARCHIVE SYSTEM

- SuperStorage Enterprise Server w/ Database Processing
- Setup & Support for LTO, Blu-Ray & Sony ODA Libraries
- Scalable from Terabytes to Petabytes

END-TO-END INTEGRATION & SUPPORT

OSS Support Services

Scalability, Security, Reliability

With every technology purchased from us, OSS provides advanced-level hardware and software support services to ensure your media archive operation is equipped with fast, reliable and knowledgeable system engineer technicians. With us, you're enabled to focus more on strategic tasks and let us handle any archive issues that arise.

Workflow Consulting

Digital Archiving Strategy

We partner with and procure leading digital preservation hardware to provide secure, future-proof storage solutions for your media assets. Our team of certified infrastructure engineers are readily available to help you build out the most optimal solution to fit your company's needs.

Software Development

Custom Application to Your Needs

Our expert software engineers provide custom software development and application services. Rely on our team to complete front-end & design, backend, database, and customized integration with scalability tailored to fit your workflows.

Systems & Application Integrations

Connecting Systems & Apps to Work Together

APIs are fundamentally changing how applications and data are used, opening you up to new opportunities around your media assets and business model.

We can help you save costs while boosting operational efficiencies by connecting software systems and applications, which remove duplication of work, reduces data silos and inaccuracies, and enhances user experience across the enterprise.

Short Throw & Ultra-Short Throw

NEC 4,500 Lumen WUXGA Laser LCD Projector

$2,579.00

The NEC PE456USL short throw, Entry Installation Series, LCD, laser projector provides a unique solution anywhere space is limited or casting a shadow on the screen is a concern. With WUXGA resolution and outstanding LCD color fidelity in a compact, manageable cabinet the PE456USL delivers clear images in challenging applications. The 20,000 hour laser life creates a low TCO projection solution.

Epson PowerLite L630SU 6000-Lumen WUXGA Short-Throw Laser 3LCD Projector

$4,181.00

Enjoy bright, vibrant images in most settings with the Epson PowerLite L630SU 6000-Lumen WUXGA Short-Throw Laser 3LCD Projector. Its 6000 lumens of brightness, combined with its 2,500,000:1 dynamic contrast ratio, overcome ambient light in most installations. Its 1920 x 1200 native resolution ensures that images and text are clear at most viewing distances. Project up to 200” from a single projector, or seamlessly match multiple projectors. Black or white.

Christie Captiva DWU500S *Ultra Short Throw Laser Projector!*

MAP $4,253.00

The Captiva DWU500S has some significant upgrades over previous models. It has the highest light output of any Captiva projector at 5,000 ANSI lumens and its resolution has been upgraded to WUXGA (1920x1200) over the 1080p from the 400S and 410S. The DWU500S can also provide a much larger projected image, being able to provide up to a 150-inch diagonal. Black or white.

Epson PowerLite 810E 5000-Lumen 4K Extreme-Short-Throw Laser Projector (White or Balack)

MAP $3,299.00

Mount the projector directly above or below your screen or white-board. The 810E can produce an 80" image from just 1" away from the wall or 100" from 4" away. At under 28 pounds, this lightweight projector can deliver an image up to 160" diagonal from only 12" away; that is an image larger than four 75" flat panel monitors in a 2 x 2 configuration.

BrightLink 1485Fi 5000-Lumen Full HD Ultra-Short Throw 3LCD Interactive Laser Projector

From Epson, enjoy out-of-the-box interactivity with the this 5000-Lumen Full HD Ultra-Short Throw Interactive Laser Projector. It includes two interactive pens and, with the addition of an optional touch module, supports up to six touch points. The projector features support for wireless sharing to and from the projector for up to 50 compatible devices. Projects up to 120” superwide 16:9.

MAP $3,560.00

ZU725TST 6000-Lumen WUXGA Short-Throw Laser Projector

MAP $6,499.00

Enjoy bright, consistent images, and low maintenance with the ZU725TST WUXGA Short-Throw Laser Projector from Optoma Technology. With a brightness output of 6000 ANSI lumens, the ZU725TST uses DLP and laser technology in an IP5X dust-resistant design to maintain rich color and high brightness over long periods of use. It houses a short-throw, fully-motorized lens and can be installed in any orientation, making it an ideal choice for a wide variety of applications, including simulation, edge-blending, projection mapping, and immersive installations.

Portable Standard Throw

Panasonic PT-VMZ51U7 5200-Lumen WUXGA 3LCD Laser Projector

$2,595.00

It sports a 1920 x 1200 WUXGA native resolution for viewing detailed video, pictures, or data. The 1.09 to 1.77:1 throw ratio offers a range of throw distances for focused images from nearly anywhere in the room. 20,000 hour laser light source; 14.3 lbs.

Panasonic PT-VMZ61U7 6200-Lumen WUXGA Laser 3LCD Projector

$3,255.00

The Panasonic PT-VMZ61 6200-Lumen WUXGA Laser 3LCD Projector in white incorporates a laser light system that is ideal for meeting spaces and classrooms, letting you give presentations and teach lessons with the lights on and blinds open. Enjoy a crisp WUXGA resolution image with a 3,000,000:1 contrast ratio, which delivers vivid color, natural skin tones, vibrant whites, and deep blacks. Getting your content projected is easy, with either use a mobile device via PC software and app, a USB flash drive, or via QR code over wireless LAN. Projection can be easily adjusted and delivered onto angled surfaces, even corners. Black or white.

NEC NP-P547 5400-Lumen and NP-P627UL 6000 lumens WUXGA Laser LCD Projectors

The projector's native WUXGA 1920 x 1200 resolution is suitable for most video and file formats and will accept up to 4K UHD sources. HDBaseT, VGA, and two HDMI inputs will support various input types, plus an analog audio input and built-in 20W speaker that will provide audio for your video. They are controllable via Ethernet, RS-232, the included IR remote control, or Crestron RoomView software.

Limited 5-year warranty!

NP-P547UL List $2,924.00
NP-P627UL List $3,274.00

EPSON PowerLite 1795F 3200-Lumen Full HD 3LCD Projector

Enjoy bright, vibrant images with this 3200-Lumen Full HD 3LCD Projector. Its 1920 x 1080 native contrast ratio will help ensure that images and text are clear at most viewing distances. The PowerLite 1795F features HDMI, VGA, and RCA video inputs to support various source devices. Its HDMI input is MHL-compatible, allowing you to connect your compatible smart device directly to the projector to mirror its screen. The projector also includes wireless connectivity, has a 4000+ hour lamp life, and weighs only 4 lbs.!

MAP $1,049.00

EPSON 3700-Lumen WUXGA 3LCD Projector

The PowerLite U50 features two VGA and two HDMI inputs to support various source devices. One HDMI input is MHL-compatible, which allows you to connect your compatible smart device directly to the projector to mirror its screen. Additionally, built-in Wi-Fi connectivity lets you stream wirelessly from your compatible mobile device with the Epson iProjection app. The projector also accepts video signals via USB from Windows and Mac computers. A VGA cable and an IR remote control are included for added convenience. Weighing in at less than 7 lbs, this projector also has a lamp life expectancy of 10,000-17,000 hours (if used in eco mode.)

Mount not included.
$1,206.00

EPSON Epson PowerLite L260F 4600-Lumen Full HD Laser 3LCD Projector (White or Black)

$1,535.00

Bring immersive displays with the PowerLite® L260F lamp-free laser display. Ideal for displaying engaging lesson content, impactful presentations, eye-catching signage and more, the PowerLite L260F offers stunning 1080p image quality and 4,600 lumens of color and white brightness. Designed for convenience, it features flexible aspect ratios, an image size that’s up to 16x larger than a 75" flat panel display and a 20,000-hour, virtually maintenance-free laser light source.

Optoma ZK507-W 4K UHD high-brighness laser projector

Optoma laser projectors use high-quality lasers to create the projected image. In many situations the perceived brightness from laser illumination projectors can be twice that of an equivalent lamp-based model. They also deliver increased efficiency to maintain consistent brightness, superior color performance, instant on/off and an extraordinary life span of up to 30,000 hours.

At 5,000 lumens, this Ultra HD 4K resolution delivers sharper, life-like images and richer colors - allowing you to sit closer to the screen and enjoy a more immersive experience.

MAP $4,799.00

Optoma ZU725T 7800-Lumen WUXGA Laser DLP Projector

Getting images just right is made to be effortless with motorized zoom and focus, full motorized lens shift, and four-corner correction to deal with uneven walls or odd-angled mounting. The ZU725T even supports large-scale, multi-projector scenarios with integrated edge blending and warping. On its own, the ZU725T is capable of delivering a 60 to 300" screen at WUXGA HD resolution, and it can handle brightly lit spaces with the DuraCore laser pumping out a bright 7800 lumens.

Epson Duet Ultra Portable Tripod Projector Screen

$149.99

This lightweight and completely portable screen offers a solution to the user that no other portable projection screen on the market can deliver. Imagine being able to "tweak" the aspect ratio of your presentation without wiring or additional fuss. Whether for business or personal use, this screen offers you the best of both projection worlds.

The screen comes with a floor stand and a bracket (with anchors) for wall projection. All that you need to do is pull the screen out to whichever dimension you require - 65" for video viewing or 80" for HDTV viewing. When your presentation is over, simply collapse the screen back to its storage position and you're ready to go.

ELITE SCREENS

Elite Screens ezCinema Series Utra Portable Floor 16:9 Pull Up Screen

This is the perfect "projector screen in a box" for portable presentations on the go. The matte white material has a wide viewing angle and is masked on all 4 sides for enhanced aesthetics and visual contrast. The screen comes with a black backing to eliminate light penetration for brighter image fidelity.

Available in these diagonal sizes:
84", 95", 107", 120", 135" and 150"

Sharp/NEC Products to WOW your Audiences and Inspire your Players

SHARP / NEC

MEDIARIGHT
AUDIO/VIDEO MEDIA · EQUIPMENT · DUPLICATION SERVICES

In today's digital world, it is increasingly challenging to keep the audience stimulated and to hold their attention, requiring more sophisticated techniques to maintain interest. Digital surfaces and interactive screens deliver a variety of data and information, with exciting possibilities to motivate and inspire your audience. Of course, reliability is vital to ensure smooth operation and to provide the kind of experience which will keep your visitors coming back for more, again and again.

Digital Signage

Digital signage is the medium by which to communicate with disparate audiences who are often on the move. Eye-catching content draws the attention of passers-by with messaging designed to stand out from other media 'noise'. Centrally controlled remote management with local accessibility provides effective digital signage that delivers relevant targeted content designed to inform, entertain and influence the viewer while bringing operational efficiencies. From menu boards, to in-suite televsions, and wayfinding displays to large scale video wall installations; Sharp/NEC has the right product to fit the need.

- Screen size options from 32"- 120" with both portrait and landscape orientation
- High definition and 4K resolution options
- Various brightness options
- Commercial grade warranties

DirectView LED (dvLED)

NEC's full line of indoor and outdoor direct view LED video displays provide attention-grabbing, high contrast and intensely bright images in the brightest environments. With our vast portfolio of products from the simplicity of our turnkey LED kits, to fully realized custom installations, Sharp/NEC has the capability and know-how to perfectly realize your vision.

- Indoor and Outdoor options
- Various pixel size options
- Unique installations and solutions available

Large Venue Projection

As the digital space becomes more sophisticated, available projector technology needs to become more sophisticated too. Sharp/NEC large venue projectors feature:

- Variable brightness options for longer life and brighter images
- Wide color space, High resolution, and high contrast to see every move
- Less energy consumption
- Less maintenance
- Environmentally friendly materials

For more information on Sharp/NEC's display solutions for your arena or sports venue, visit https://www.sharpnecdisplays.us/

SHARP / NEC
Authorized Reseller

PN-CD701 70" Class 4K UHD Touchscreen Windows Collaboration Teleconferencing Display

MAP $7,495.00

The Sharp PN-CD701 Windows collaboration display is a next-generation 4K Ultra HD 70" Class (69.5" diagonal) interactive display that enables better space utilization and more productive collaboration in meetings, boardrooms, training rooms, technical reviews, and almost anywhere else.

As well as using Sharp's award-winning technology, together with a built-in microphone, high-quality camera, and IoT sensor hub, it works seamlessly with the best Microsoft 365 collaboration tools. Furthermore, it's all backed by the cloud to deliver outstanding ease of use and enable the continual analysis of meeting room conditions and usage.

Value Priced 4K Interactive Display with 20-point Multitouch and built in Digital Tuner

Looking for a powerful, yet affordable solution to make your classrooms and meeting rooms interactive? The 4W-B70CT1U AQUOS BOARD® interactive display is a perfect solution for those in search of a large format display that brings interactivity to any room. Plug and Play will let you unleash the interactive capabilities of your devices with easy setup and without the need to install drivers. Precise 20 point multi-touch functionality allows multiple people to collaborate effectively and creatively to facilitate effective learning. A powerful RS-232C and LAN command set enables flexible remote control from connected devices. When selected, "Public Mode" prevents unwanted operations by people in a classroom or any other public location.

Ask about low-cost interactive TAA compliant 55", 65", 75" and 86" options!

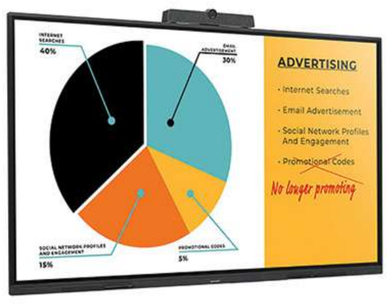

Sharp AQUOS BOARD HDR 4K UHD Touchscreen Commercial Monitor

PN-LC652 65" MAP $2,499.00

Mounts and Covers for Displays

Full Motion TV Wall Mount with Extra Long Extension

$169.00

This extra long arm TV mount with full motion capabilities extends up to 40", allowing you to position your TV perfectly in any setup. With its sturdy long reaching dual arms, it can be mounted conveniently in a corner, allowing you to maximize space. Get the most out of your TV's high definition quality with this versatile television mount.

Compatible with VESA patterns from 100x100mm to 800x400mm, screens up to 80", and holds up to 110lbs
Long extension up to 40"
Full motion mount can tilt, swivel, and extend for perfect positioning
Sturdy dual arm support holds up to 110 lbs

Chief Articulating Outdoor Wall Mount

MAP $627.20

Designed to support all-weather outdoor installations and enhance the viewing experience. The ODMLA25 Articulating Outdoor Wall Mount provides full motion for optimal viewing from many positions. The mount features a weatherproof design including protective outdoor-rated finishing and stainless-steel hardware.

Pair with most indoor or outdoor displays for outdoor digital signage, outdoor living and humid indoor environments.

Chief Fusion Tilt Wall Mount

(Fits TVs 32”-65”) MAP $307.20

Chief's Fusion tilt wall mounts were developed based on installer feedback and direct observations of installers in the field. Favorite Fusion features include Centerless shift, Centris tilt and ClickConnect Latching.

Benefits included increased stability, fast installation, easy cable management and security.
The installer-inspired Fusion tilt mount solves top flat panel installation problems, offering flexible adjustments for large displays with a low-profile display mounting solution.

Team Favorite!

Chief Large THINSTALL Dual Swing Arm Wall Display Mount

MAP $568.83

This mount provides the strong support you need for mounting TVs. A lightweight, low-profile full-motion wall display mount for TVs 42-75". Easily installs with one person by mounting the top rail and sliding on the assembly.

Ultra Low Profile Sleek design collapses to 1.5" (38 mm), providing an ultra-low profile for all types of TVs, including LED, LCD and Plasma; Extends up to 25" (635 mm) Full extension maximizes viewing potential. Centris™ low-profile tilt Provides up to 15° of effortless fingertip tilt to achieve optimal viewing angles.

Heavy Duty Tilting TV Wall Mount

Only $41.99!

The solution to your wall mounting needs. Not only will it cover most screens and weights on the market, but it is built with 2mm thick steel that will last through future upgrades as well. The low profile design and modern black sleek powder finish give your TV room a contemporary look. The integrated bubble level and cable management holes make a clean looking installation easy.

Ideal for 42”-80” screens; supports up to 220 lbs.

Motorized Fireplace TV Wall Mount | Fits 40-70 Inch TV Screen

This TV mount was designed to solve the typical problem of installing TVs above the fireplace. Do not underestimate the sleek design of our TV wall mount. Our motorized mount can carry TV screen from 37-70" and up to 77 lbs. Though the mount is motor-powered, it moves quietly but fast. The cable management system helps achieve an elegant and clean look while ensuring that no cable accident will happen while you adjust your TV mount.
$299.00

GoPro

At MediaRight always the right price!

The GoPro Hero 12 Black

HERO12 Black takes GoPro's best-in-class image quality to the next level with new High Dynamic Range 5.3K and 4K video, upgraded 6.0 video stabilization and an industry-leading 177° field-of-view with Max Lens Mod 2.0. Other new features include a totally redesigned power management system for improved thermal performance and up to 2x longer runtimes, and Bluetooth audio support for Apple AirPods and other headphones to record sound and give remote voice commands. There are also pro-level features like wirelessly synchronizing multiple HERO12s via timecode, advanced color controls, and more.

MSRP $399.99

Accsoon CineView SE Multi-Spectrum Wireless Video Transmission System

CineView SE allows you to send a 1080p60 camera signal to the included receiver plus up to three mobile devices. This versatile wireless video transmission system provides a cost-effective way of allowing four people on set to monitor an HDMI or SDI camera signal.

The included dedicated receiver is easy to set up and pair, and it features an HDMI and SDI output. The free-to-download companion app installs on a tablet or smartphone. The transmitter and receiver feature DC power inputs, USB Type-C power inputs, and they also support an optional L-series battery that can power the set for up to 12 hours.

Accsoon SeeMo Pro SDI/HDMI to USB-C Video Capture Adapter

$349.00

There's no need to purchase a separate monitor when using your camera, if you already own an iPhone or iPad, since the SeeMo Pro SDI/HDMI to USB-C Video Capture Adapter from Accsoon provides that link for you. The SeeMo Pro enables the use of your iPhone or iPad screen as an external camera monitor for cameras with HDMI or SDI output, and it delivers additional functionality to make it the ideal accessory for filmmakers on the go. You can record HD footage directly from your camera through the SeeMo Pro onto your phone or tablet, or live stream what your camera sees onto your favorite social media platform to share.

DJI Ronin SC2 Gimbal Stabilizer

$449.00

The DJI RSC 2 is designed for mirrorless and DSLR cameras and supports up to 6.6 lb camera and accessories loads.

A key feature of the RSC 2 is a foldable design that allows switching to underslung mode. The gimbal head folds down from the gimbal handle, and you can then flip the gimbal around and use it underslung for low-angle shots, without having to attach or detach anything. The gimbal handle remains integrated and has built-in batteries that provide up to a 14-hour runtime. Also, the batteries can be charged via the handle while the gimbal is being used in operation.

DJI Pocket 2 Gimbal

$349.00

the DJI Pocket 2 Gimbal adds a 1/1.7" 64MP CMOS sensor, up to 8x zoom, a 93° angle of view, and four directional stereo microphones with DJI Matrix Stereo audio zoom, utilizing its lightweight, ultra-compact 3-axis gimbal stabilizer and 4K camera combination.

AW-UE4WG Compact 4K PTZ Camera with IP Streaming

The AW-UE4WG Compact 4K PTZ Camera can be used on a desktop or mounted to capture and stream up to UHD 4K30 video and stereo audio in an ultrawide 111° FOV. It has a built-in stereo mic and mute and ACL functions, and supports LPCM (USB) / AAC-LC (IP) 48 kHz, 16-bit audio capture. You can connect to a PoE hub or to a computer over USB for power and data transfer in a simple, single-cable solution. Up to 328' Cat 5e or higher cables are supported for streaming. An HDMI output is also provided. Supports the Panasonic AW-RP60GJ and AW-RM50G controllers.

$1,200.00

AW-HE20 / AW-UE20 Pro Level PTZ Models

AW-HE20 HD $1,495.00
AW-UE20 Adds 4K $1,895.00

These models offer high image quality, wide shooting angle and high-magnification zoom to provide more comfortable communication through high-quality video images and stable transmission. Compatible with a wide range of systems such as SDI, HDMI, USB and IP, thus allowing flexible camera setup and operation, tthese high-quality entry models can be installed in a small place without getting in the way.

AW-UE40/ AW-UE50 Premium PTZ Models

Remote cameras enhance the visual communication in a variety of applications ranging from online classes to online seminars. The AW-UE50/UE40 supports a compact design to blend in with the surroundings and operates very quietly to permit flexible use in any video shooting locations or conditions. The AW-UE50/UE40 offers high security and it is easy to install and operate for capturing stable images, so even people unfamiliar with video shooting or camera operation can utilize it. The excellent flexibility of the product simplifies wiring and operation.

AW-UE40 HDMI $3,305.00
AW-UE50 HDMI/3G-SDI $3,835.00

Panasonic AW-UE80 Top-of-the line Premium PTZ Camera

The AW-UE80W/K is a PTZ camera suitable for recording events without spoiling the ambiance. The dome-shaped design minimizes “the feeling of being recorded on video” while the new direct-drive motor produces a very quiet operating sound so it won’t disturb the production activities or spoil the ambiance. The camera offers high-image-quality 4K/60p resolution, wide 74.1° angle, and optical zoom with up to 24x magnification to achieve superb video image quality. The AW-UE80W/K also offers excellent stability and security during video streaming so it can be used for any type of video production.

$6,145.00

Panasonic AW-UE100 Platinum 4K/60p live streaming PTZ camera

First 4K 60p/50p PTZ Camera supporting NDI and SRT in the world. Supports high bandwidth NDI for low latency transmission of high-quality 4K 60p/50p video, and SRT for high-quality and stable transmission, and also compatible with 12G-SDI output for use in a wide range of situations, from live streaming of events to studio production.

Available in black or white.

$8,350.00

AW-HE145 Platinum series Full HD PTZ Camera

The HD integrated camera AW-HE145 realizes high sensitivity of F9/2000lx with the mounted 1.0-type MOS sensor, and can shoot beautifully with low light. The operation mechanism is the same design as the high-end model, so the operating performance of the pan/tilt and zoom is smooth and accurate, allowing you to shoot without stress. Furthermore, it is equipped with an optical 20x zoom and horizontal 75.1° wide-angle lens to realize flexible video production.

$11,025.00

Tradition of Innovation

For over 100 years, Cooke has been at the centre of the film-making business. We've been listening to the community of which we are a part. We lead by introducing new products such as /i Technology, and we remember our success is built on a simple idea - do what the film-maker needs.

Since 1893, Cooke offers a legacy of superior and innovative lens design and manufacture under the Cooke name that continued throughout the 20th century beginning with still portrait, telephoto and process lenses, through the development of acclaimed Cooke cine and television lenses, and continues today by Cooke Optics Limited, with award winning 35mm cine prime and zoom lenses.

SONY

Creative tools for the creator in you.

SIGMA

Since 1961, Sigma has worked towards a single, simple goal: To imagine, and develop, the technologies that will allow the attainment of the perfect image. It's evident in the collaborative design process that unites R&D, manufacturing, marketing, sales, and service. It's evident in standards requiring 100% of the lenses be analyzed by proprietary ultra-high definition sensors and approved before leaving the factory.

SIRUI, the world's leading anamorphic lens, lighting equipment, and camera support brand, has long been dedicated to providing filmmakers with the ultimate shooting experience. SIRUI products, known for their high performance at an affordable price, have been widely recognized and highly commended by budding filmmakers and professionals at home and abroad. So far, SIRUI has established an impressive customer service network around the world, as well as over 300 sales outlets and terminal showrooms.

Panasonic UX90/UX180	RCS-UX180	$142.50
Sony PXW-Z150	RCS-Z100	$142.50

Acebil Rain Jackets protect your camcorders while shooting in the rain- It features clear vinyl windows and covers the entire camera and both the viewfinder and an attached microphone. We offer several models to protect your JVC, Panasonic, Sony and Canon camcorders from the elements!

Optech Rain Sleeves

Help protect your camera and lens from foul weather with rain sleeves from Op/Tech. Sixes range from small, medium and mega - perfect for the "just in case it rains" days!

Only $8.49!

Dotworkz D2 Base Model Camera Enclosure- Clear Lens

The Dotworkz D2 Base Model Camera Enclosure with Clear Lens protects an analog or IP PTZ camera in an indoor or outdoor location from weather and vandalism. This housing works with many of today's top camera brands and has extra room to accommodate peripherals such as encoders, hard drives, routers, etc.

$399

Hoodman Glare Fighting Hoods

Can't see your screen in the sunlight? Hoodman can help! Glare fighting hoods for monitors, cameras and camcorders, viewfinders, camera LCD screens and more provide worry free viewing for outdoor photo/videography. For 35 years, Hoodman hoods are what cinematographers and broadcasters use in the field to view their monitors glare free.

iSERIES COMPARISON CHART

SUPERIOR PROTECTION

All SKB iSeries Injection Molded MIL-STD Waterproof Utility Cases are molded of ultra high-strength polypropylene copolymer resin, and feature a gasket-sealed, water- and dust- tight, submersible design that is resistant to corrosion and impact damage (MIL-STD-810G). Other standard features include a molded-in hinge, patented "trigger release" TSA-retrofittable latches, comfortable snap-down rubber over-molded cushion grip handles, automatic ambient pressure equalization valve (MIL-STD-648C), and resistance to UV, solvents, corrosion, and fungus.

FEATURES/BENEFITS

- Lighter & 2.8x stronger than the competition
- Many interior options: empty, cubed/layered/custom foam, padded dividers
- Field-replaceable hardware: latches, handles, hinges, wheels
- Easy-open trigger latches with TSA lock options

From breaking the news around the world, capturing sports action on the track or field, documenting remote, wild and extreme environments or shooting blockbuster movies in Hollywood Anton/Bauer batteries are a constant reliable fixture on set.

You can find the full line-up of of Anton Bauer products at MediaRight!
Need help finding the right models, or looking for a quote? We can help!

Core SWX Hypercore NEO 150 Mini 147Wh Lithium-Ion Battery (Gold or V-Mount)

$499.00

The Hypercore NEO 150 Mini from Core SWX is a compact 14.8V, 147Wh lithium-ion battery that features a Gold or V mount, and it supports a constant 12A draw with a peak draw of 16A. The Hypercore NEO 150 Mini has the ergonomic design, large backlit LCD, and protective overmolded rubberized housing that Hypercore batteries are known for over their past releases.

Core SWX Nano-VBR98 7.4V Battery

$248.00

The Nano-VBR98 7.4V Battery from Core SWX is designed for use with the AU-EVA1 and other select Panasonic cameras. This clever solution provides a 12V D-Tap port often found in larger pro-style Gold or V-mount batteries, but in the smaller form of the original battery type.

INDI PRO

2x Micro Alpha 99Wh V-Mount Li-Ion Batteries and Dual V-Mount Battery Charger Kit

Add a battery kit to your mobile rig to keep your gear powered all day with this Micro Alpha Series 99Wh V-Mount 2-Battery + Dual Charger Kit from IndiPRO Tools. The kit includes two ultracompact Micro Alpha 14.8V, 99Wh V-Mount batteries, and a dual-battery V-mount charger. The batteries come in a black color.

Each offfers a bright, clear LCD status display. They also feature two 14.8V D-Tap outputs and two 5V USB outputs for powering accessories while you are powering your lights or camera via the Gold or V-mount. $649.00

*Available in Carbon Fiber Color- $659.00

Micro-Series 98Wh V-Mount Li-Ion Battery

Its small size belies the power of the IndiPRO Tools 98Wh Micro-Series V-Mount Li-Ion Battery, which can handle power draws of up to 12A. This battery mounts on a standard-sized V-mount battery plate. It's suitable for use on smaller camera bodies and for a variety of applications that benefit from a small footprint that doesn't sacrifice performance. You can power smaller cameras for extended run times via the battery's D-Tap output port, using a variety of optional D-Tap adapter cables. The battery's 6.8Ah capacity and 14.8V output are sufficient to power most professional cameras. Also available in gold or V-mount. $229.99

IndiPRO Tools Universal V-Mount Battery Belt with 5 x D-Tap Outputs

Power your camera and equipment in a mobile setup with this heavy-duty Universal V-Mount Battery Belt with 5 x D-Tap Outputs from IndiPRO Tools. The adjustable belt fits waists up to 48" and features a standard Gold or V-mount battery plate. The Indipro NP-F980 6600mAh Li-Ion battery features USB Type-A Output for Mobile Devices; Micro-USB Input for Direct Charging and a 4-LED Gauge with Check ButtonMAP $49.99

jupio

LEADING THE CHARGE

PORTABLE SUPER POWER!

Ideal for recreational use on the go, the PowerBox 500 features a lithium iron phosphate (LiFePO4) battery chemistry for a more stable and environmentally friendly power source with a lower risk of overheating compared to other traditional battery chemistries. With seven different ports it can also charge a variety of devices you might need including phones, tablets, and cameras. 7 output ports: Two AC, two DC, two USB-C, one USB-A with QuickCharge 3.0. $499.00

Jupio PowerBox 500 US Portable Power Station

Jupio PowerBox 1500 US Portable Power Station

With a peak power of 1500 watts, this PowerBox is the solution to power all your essential devices. Power everything from computers, cameras, and communication devices to electric grills, coffee makers, small refrigerators, and more. The built-in AC input charger means there's no adapter required - simply plug and play! If outdoor power consumption has got you down, the ability to charge via solar panels will brighten your day. 6 x AC; 2 x DC, 2 x USB-C; 4 x USB-A

$1,149.95

Ask about the Jupio SolarPower60 Solar Panel to top off your stations!$259.00.

IndiPRO Tools Field Power Station

The Field Power Station provides two battery bays and two XLR outputs for powering your cameras, lights, and other gear on set and nearly anywhere else. The compact, durable, and portable hard case has locking latches and a solid ergonomic carry handle.

The case features dual-voltage output, which can utilize 14.8 or 26V batteries providing power to one 3-pin XLR output and one 4-pin XLR output. An LCD on the case shows voltage and battery health information. The case also supports hot-swapping batteries to prevent shutting down your gear.

GravityBackDrops

Gravity Classic Backdrops are our meticulous, hand-painted take on Classic studio backdrops produced in small batches by our artisans.
All Gravity backdrops are created using high-grade 450gr (15oz) Italian cotton duck canvas and layers of premium water-based acrylic paint for exceptional durability and color fastness. This results in a rich, luminous, complex, layered artwork which interacts with your lighting to create a uniquely distinctive and dramatic image.
Our distressed textures feature worn edges and additional aging throughout to give you the look of a well-loved and cherished backdrop that you’ve owned for years (much like your favorite pair of jeans or that perfect t-shirt.)

WHY NDI®?

Leverage NDI® for Live Video over IP. NDI®, or Network Device Interface, enables **video delivery over a local area network**. It is the most advanced solution for IP video transmission inside organizations where multiple devices are on the same network.

Control as many cameras as you want through one computer or controller for your next **live sporting event**, step up the production value of **conference calls**, or centralize video delivery for **educational institutions**—and so much more. From powering the camera with PoE, to connecting to your switcher or computer, you only need that one ethernet cable to operate a single PTZ camera.

For More Information on using NDI® in your next video production, contact MediaRight.

Webcam Solutions

Huddly L1 for large and medium meeting rooms

With Huddly L1, no one gets left out. Its 6K sensor and fixed-focus lens capture everyone in razor-sharp detail, while intelligent framing ensures that participants and conversations always take center stage. Plus, with room analytics, you can gain valuable insights to help you optimize your spaces like never before. Say hello to the ultimate collaboration camera!

$2,080.00

Huddly IQ AI-powered camera with embedded microphone array

Not only does it feature a wide-angle lens with a 150° diagonal field of view, but it also features real-time dewarping for a natural looking image. The power of the IQ camera is in AI functionality that allows it to recognize the number of people, and their positions, in a shot and automatically adjust framing to best cover everything. Manual control is available if you wish to override the camera's choices. You can mount the camera upside down and it will automatically correct the image with its 180° auto-flip function.

The Huddly IQ Compact Conferencing Camera connects to your computer via USB to receive power and transfer video via the downloadable desktop app.

$829.00

Huddly Canvas

For whiteboards in any space

Add a whiteboard camera to any whiteboard to improve the impact and reach of your presentations, lectures, as well as local and remote meetings with this Huddly Canvas Whiteboard Content Camera Kit. The kit enables you to mount the included camera and support arm to capture images drawn on whiteboards. Simply mount the arm 5" above your whiteboard (mounting screws not included) and the camera will be set at the proper distance to capture from boards up to 6 x 4'.

$1,245.00

Huddly ONE for small meeting rooms and home office

Huddly ONE is a compact, flexible camera perfect for small meeting rooms and home offices. Offering Full-HD resolution and a wide-angle view, it provides clear video for smooth communication. The camera intelligently adjusts image brightness, delivering optimal visuals regardless of the environment. Compatible with both Mac and PC, Huddly ONE works on any collaboration platform.

$399.00

New from Huddlecam! See the MiniTrack 4K Pro on page 57.

HuddleCamHD

The Webcam is made to make video conferencing and recording easier than ever. This webcam has been designed to include features that you will find in much more expensive webcams at a price that anyone can afford. The Webcam is a plug and play USB 2.0 webcam built for hassle-free cloud-based video conferencing applications like Skype for Business and Zoom. But it's also flexible for use with high definition live streaming on social media websites such as YouTube or Facebook. This high definition 1080p webcam features a wide-angle 104-degree field of view. It's a perfect fit for small meeting rooms and personal office spaces. The high-quality optics on the Webcam includes automatic controls for exposure, white balance, and even wide dynamic range. ***Only $37.99!***

Add pan-tilt-zoom capability and an IR remote with the Huddlecam HD Pro! Only $295.00

HuddleCamHD UHD EPTZ Conferencing Camera

Made for professionals, the UHD 4K USB 3.0 EPTZ Conferencing Camera with HDMI Output from HuddleCamHD adds electronic pan, tilt, and zoom to a compact design. The CMOS sensor captures up to UHD 4K30 resolution video and features a dual-mic array to capture crisp, clean audio. It sends audio and video out to a computer via USB, or to a display via HDMI. The camera is plug-and-play, connecting to your host computer using a USB cable, which provides power to the camera. The camera's 108° ultra-wide field of view is ideal for use in small huddle rooms and streaming spaces, and its 4K resolution helps maintain detail when zooming in on participants' faces with up to 8x digital zoom.

$299.00

Wireless USB Camera & Microphone Solution - the HuddlePair from HuddleCam!

The HuddlePair camera features a wide 106 degree field of view capable of capturing multiple meeting room participants even in close proximity to the camera. The HuddlePair features a 1080p video camera and is ideal for high definition video conferences and recordings. The included wireless speakerphone features an omnidirectional microphone designed to provide a 360 degree pick up range for your meeting spaces. With 256 ms echo cancellation and intelligent noise cancellation up to 16-decibel levels, your meetings will sound crystal clear.

$299.00

; Meeting Owl 3 360° 1080p /ideo Conference Camera

he upgraded Owl Labs Meeting Owl 3 360° 1080p Smart Video Conference Camera expands upon the features of the previous model to create an advanced panoramic video conferencing system. A single 360° lens captures 1080p video of everyone in the room within a 10' radius, while eight omnidirectional microphones capture audio from up to 18' away. Three integrated speakers project 360° audio from remote participants.

$1,049.00

BirdDog Pod NDI to USB Webcam Converter

Quickly and easily convert up to four NDI streams and transmit them as a USB webcam with this Pod NDI to USB Webcam Converter from BirdDog. The compact unit fits right onto your meeting room table and plugs into a computer using the USB Type-C output.

Its RJ45 Gigabit Ethernet port plugs into your network and auto-detects NDI streams. The four numbered buttons allow you to choose which NDI stream to send to the USB output. The USB output can be utilized by just about any third-party streaming software such as Zoom and Teams,

Use the soft-touch buttons, conveniently numbered 1 to 4, to switch between sources; use with a PoE (Power over Ethernet) switch to power pod without the need for any wall plugs.

BirdDog Flex 4K Out Full NDI Decoder

The Flex 4K Out Full NDI Decoder from BirdDog is an ultracompact HDMI interface for NDI video sources. Connect your NDI-enabled camera or other video source and have an HDMI output instantly available. The BirdDog Flex Out supports up to UHD 4K30 and 1080p60 resolution video. $429.00

HDMI in to NDI Encoder $429.00

BirdDog 4K HDMI 2.0 NDI Encoder/Decoder

the BirdDog 4K HDMI 2.0 NDI Encoder/Decoder supports up to UHD 4K/60 video input for distribution on NDI networks in full-bandwidth I-frame compression. The compact device is housed in an aircraft-grade aluminium case and features an HDMI 2.0 input and HDMI 2.0 and 12G-SDI individual outputs. It also has a built-in cross converter that allows the HDMI input to be looped out via the 12G-SDI output. $945.00

Ask about other options available from BirdDog!

BirdDog Core 5 Monitor/Encoder/Decoder

Encode your 12G-SDI or HDMI video source to an NDI stream and transmit it using a variety of format options with the CORE 5 Monitor/Encoder/Decoder from BirdDog. The Core 5 is a compact combination encoding, recording, and streaming device that can input up to 4K60 video and output streams to high-quality NDI, NDI|HX/2/3, and IP streams. Its built-in high-bright 5.5" monitor provides a crisp image preview. ffers 2 x 12G-SDI inputs, HDMI input, HDMI loop output, RJ45 as well as SFP+ port to extend your transmission.

$1,295.00

BirdDog PLAY 4K NDI Player

Add a convenient video player to your NDI network with the PLAY 4K NDI Player from BirdDog. The PLAY is designed to automatically detect all the NDI video streams on your NDI network and display them in a standard set-top box thumbnail view, which allows you to then select and play any video on your NDI network with up to UHD 4K60 resolution on an HDMI display.

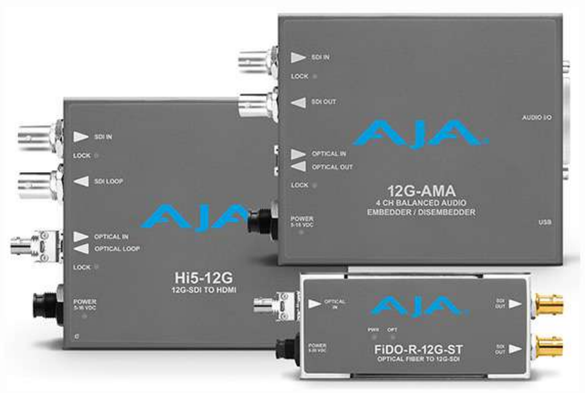

The PLAY has a compact footprint that measures only 3.3" square and can sit anywhere in your environment by mounting it on your desktop with its rubberized base ring or by using its magnetic base. It is powered via a USB Type-C input.

Presentation Solutions

KD-PS42 *Team Favorite!*

4K/18G Presentation Switcher with 4 Inputs (HDBT, 3x HDMI), 2 Mirrored Outputs (HDBT, HDMI), Audio De-Embed, IR, RS-232, IP, CEC Manager™. Includes Rx.

KD-PS42 features three HDMI and one HDBaseT input which integrates natively with HDMI + Display Port wall plate, KD-X2x1WDTx (sold separately). Mirrored HDMI and HDBaseT outputs enable audience + presenter views and the HDBaseT output marries in with the included KD-X40MRx for integrating monitors or projectors up to 40m / 131ft away when the selected source is outputting 4K/UHD (up to 70m / 230ft at 1080p).

KD-X2x1WDTx

2x1 4K/18G 40m HDBT PoH Wall Plate Switcher with HDMI & DisplayPort, IR, RS-232. Transmitter Only.

HDCP 2.2 compliant and supports 4K 24/25/30/60 (4:4:4) resolutions with up to 18Gbps bandwidth. 4K/UHD signals are extended up to 40m / 131ft and 1080p up to 70m / 230ft via single CAT5e/6 cable. In addition to AV signals, KD-X2x1WDTx extends IR and RS-232 for controlling remotely located equipment. The wall-plate unit fits in a standard US dual-gang box and is powered by the Rx unit / presentation switch or Presentation Switcher for convenient installation.

KD-UPS52

4K/18G USB/Universal Presentation Switcher with 5 Inputs (HDBT, 2x HDMI, DP, USB-C), 2 Mirrored Outputs (HDBT, HDMI), LAN, ARC, Audio De-Embed, IR, RS-232, IP Control, CEC Manager™. Includes Rx. KD-UPS52U also features two USB-A and one USB-B connectors, enabling connected laptops and computers to connect with web cams, USB microphones, touchscreen displays, conferencing DSPs, and more. Mirrored HDMI and HDBaseT outputs enable audience + presenter views and the HDBaseT output marries in with the included KD-X100MRx for integrating monitors or projectors up to 100m / 328ft away when the selected source is outputting 4K (up to 150m / 492ft at 1080p).

KD-X4x1WUTx

4x1 4K/18G 100m HDBT PoH Wall Plate Switcher with 2x HDMI, DP, USB-C, USB, LAN, ARC, Audio De-Embed, IR, RS-232, IP Control, CEC Manager™. Transmitter Only.

Features push-button or TCP/IP switching selection of the desired source and is KD-App Ready. Key Digital CEC Manager™ enables basic controls of the connected display for a simplistic all-in-one integration system. HDCP 2.2 compliant and supports 4K 24/25/30/60 (4:4:4) resolutions with up to 18Gbps bandwidth. 4K/UHD signals are extended up to 100m / 328ft and 1080p up to 150m / 492ft via single CAT5e/6 cable. In addition to AV signals, KD-X4x1WUTx extends USB 2.0, IR, RS-232 for controlling remotely located equipment.

KD-BYOD4K

4K KDPlay Wireless Presentation Gateway for PC, Mac, iOS, Android and Chrome OS devices. Full and Multi-Presenter Viewing Modes. Screen Mirroring via LAN or WiFi with built-in Antenna. Power over Ethernet, HDMI and Analog Audio Output, USB Keyboard, Mouse, and Annotation Control.

Multiple attendees may cast simultaneously, encouraging teachers and students, trainers and participants, all to collaborate regardless of their connection type and without the hassle ofwires. KD-BYOD4K features annotation, moderator management and touchscreen/mouse control.

KD-S4x1X

4x1 4K/18G HDMI Switcher with L/R & Optical Audio De-Embed Output

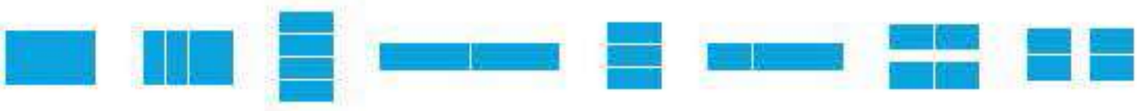

KD-S4x1X enables multiple video sources to connect to a single video display while L/R analog and Optical audio de-embed ports may be used to feed audio of the selected source into amplifiers, DSPs, or sound bars. KD-S4x1X supports all SD, HD, VESA and Ultra HD/4K video standards with HDR header information included in a variety of 4K EDID handshakes. The switchers feature push button and optical IR switching, status-monitoring LEDs, and support of HDR10, HDCP 2.2 and 4K.

KD-VW4x4Pro

4x4 Outputs Video Wall Processor, supports Seamless Matrix Switching

KD-VW4x4Pro is a cost effective video wall processor designed to allow customers and integrators to use standard displays and digital signage for their video wall needs. This processor supports seamless switching and features eight different user-selectable video wall modes with many horizontal and vertical layouts. These modes include: four horizontal: 1x4 rotated, 1x4, 1x3, and two sets of 1x2; and three vertical: 4x1, 3x1, two sets of 2x1, and typical 2x2 setup.

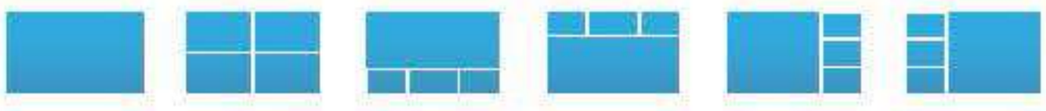

KD-MLV4x2Pro

4x2 HDMI VGA HDBaseT Seamless Presentation Matrix Switcher and Multi-View Tiling Processor with Audio De-Embed, POH. Includes 1 Rx Extender.

KD-MLV4x2Pro is a seamless multi-format video matrix with UHD/4K resolution up-scaling, multi-view window processing, audio de-embedding, independent audio from video matrix selection, and HDCP 2.2 compliancy. The HDMI and HDBaseT output are independent in full-screen and quad screen modes. KD-X222PO Rx HDBaseT extender receiver is included and powered from the matrix.

KD-MS4x4G / KD-MS8x8G

4x4 / 8x8 4K/18G HDMI Matrix Switchers, with Independent Audio Switching, Balanced/Unbalanced Audio, Audio De-embedding of Analog L/R/PCM

KD-MS4x4G and KD-MS8x8G are 4K matrix switchers with support of 18Gbps signal bandwidth and HDCP 2.2 for routing and distributing 4/8 HDMI source signals to 4/8 displays. KD-MS4x4G and KD-MS8x8G feature 4/8 analog and digital audio outputs which may be independently controlled to follow the HDMI output selection or separately switched. Supports all SD, HD, VESA and 4K video standards up to and including 4K 18G and 1080p. All UHD/4K EDID handshake files include HDR header information.

Collaboration and Conferencing

Allow 4 devices to connect to your conference room display with the Conference Room Video Hub - HDMI® and USB-C® from Cables2Go!

No drivers or apps needed. The video hub allows two HDMI and two USB-C laptops or tablets to be connected to a single HDMI output. The source selection switch allows you to manually select the input, or if you prefer auto-switching, the hub connects to the last who plugged in. White LED lights over the connected inputs conveniently indicate which source is currently selected. MAP $169.00

Jabra Speak 510 USB & Bluetooth Speakerphone

Hear and be heard on your conference calls! This speakerphone features a 360°, omnidirectional microphone with echo cancellation to help ensure clear conference calls with multiple participants in the same room. Its rim has volume, call, and mute controls alongside a programmable smart button. The speakerphone connects to your computer through its built-in USB Type-A cable or you can pair with Bluetooth-compatible devices for wireless connections. Multiuse technology allows for up to two simultaneous Bluetooth connections, with one active audio connection at a time, for added convenience.

Take your fully-equipped meeting room on the road! Conference in from anywhere with a complete, easy-to-use set up, and run meetings from your personal laptop or device!

The portable MediaRight system from Stem Audio includes 3 tabletop portable speaker phones- each one containing 9 high-performing microphones!

Add the "brains of the operation"- the Stem hub, which allows up to 5 speakers to connect to each other...that's a capability of 45 microphones in one high-performing, portable ecosystem!

The all-inclusive kit includes:
Stem Audio table mic (x 3) and hub, a Netgear PoE switch, webcam, CAT6 and HDMI cabling, SKB hard system case. (Display and PC/device are not included.)

All this for only $2,995.00!
(Call for more options and pricing!!)

Everybody Needs More Fiber!

Portable Fiber-optic Signal Acquisition!

The Tote Caddie series from Joseph Electronics offers a better option for fast, operator deployed point-to-point signal transport. Built using rugged Pelican cases, it is a compact, functional, and weather-resistant fiber solution for news and field crews working in harsh environments.

The Tote Caddies are designed with customization in mind. There are more than twelve modules available that can be mixed and matched to provide the exact signal count you need.

Power is provided by local AC mains or with an Anton-Bauer battery while an internal, filtered fan ensures that everything stays cool regardless of the weather outside.

Dealing With Defective Cables? We can help!

Our fiber partner Joseph Electronics is also a factory certified and trained fiber repair shop. Call MediaRight and we'll help you send in your defective fiber cable assemblies or breakouts regardless of manufacturer, and we will work with Joseph Electronice to perform a free evaluation using our state-of-the-art OTDR and TDR testing equipment as well as a full visual inspection. We will then provide a written estimate detailing the necessary repairs for each cable to bring them back to perfect working order.

Custom Fiber Solutions

Under the BTX Technologies Manufacturing Division, the highly skilled fiber specialists handle all your fiber needs, building LEMO® SMPTE, Neutrik opticalCON, and QPC ruggedized fiber assemblies using the most accurate automated termination and test equipment in the fiber lab.

the Metalwork division offers custom plates and panels with fast turnaround, precise manufacturing, and a vast inventory of A/V, Broadcast, and IT connectors. The complimentary Pro Plate & Panel software features an extensive symbol library for easy design and supports various export formats.

Custom Reels from MediaRight and BTX

Each reel provided by MediaRight and BTX can be ordered with a custom cable assembly solution for almost any project. Offering Schill GT series, Hannay and OCC M.A.R.S. reels in various sizes. Custom hub interface panel on reels is also available. Our staff is ready to provide the right-sized solutions for your unique project needs.

Authorized Reseller

Thor is a trusted manufacturers of CATV and Fiber Transport equipment for over 2 decades in telecommunications, sports, education, hotel guest experience, TV studios, casinos, house of worship, and Live events. The Thor award-winning CATV Encoder Modulators have been touted globally as an all-inclusive headend in a box, encoding any input HDMI/SDI/CVBS/YpPbr in Mpeg2/H.264 and outputting on RF/IP/ASI in Ultra-Low Latency simultaneously makes it a perfect fit for any application.

POLATIS® OPTICAL SWITCHES

The highly reliable piezoelectric DirectLight™ beam-steering technology from POLATIS sets the industry standard for lowest optical loss and highest performance. With more than a billion port-hours accumulated on deployed units, the POLATIS technology platform delivers a broad range of class-leading all-optical matrix switch products into demanding applications. At the core of POLATIS optical switches is our patented DirectLight beam-steering technology that makes connections using compact piezoelectric actuators to align collimated beams of light from opposing arrays of input and output fibers with minimal loss, distortion or interference between paths. Switching occurs completely independently of the power level, colour or direction of light on the path, enabling pre-provisioning of dark fiber and avoiding concatenation of switching delays across mesh or multi-stage switched optical networks. POLATIS optical switches are fully non-blocking and available in sizes from 8x8 to 576x576.

Need to convert? Take a look at Black Magic.

Blackmagic Design Mini Converter Optical Fiber 12G-SDI

The Mini Converter Optical Fiber 12G-SDI from Blackmagic Design offers bidirectional, multi-rate SDI to optical fiber conversion capabilities with complete independence in each direction and support for up to DCI 4K25 and UHD 4K60 signals. This converter has one SFP optical fiber socket (requires a separate module), one 12G/HD/SD-SDI input, and one 12G/HD/SD-SDI output. With a 10-bit rate, you can take advantage of long fiber runs and compatibility with both studio and field HD-SDI and SD equipment.

Ask about Fiber Solutions from AJA- we can help!

AJA provides a range of products and options to allow you to make the most of your fiber infrastructure. The FiDO line of Mini-Converters, alongside openGear rackframe versions are specifically designed to enable conversion and transfer of baseband video and raw video data across Fiber and the wide range of model choices allows you to address Single-Mode and Multi-Mode needs.

FiDO is AJA's family of SDI/Optical Fiber converters. FiDO allows the transport of 12G/3G/HD/SD-SDI over distances up to 10km when using standard Single-Mode fiber optic cable. FiDO models support video formats all the way up to 4K/UltraHD.

Choose LC, ST, or SC fiber connectors, depending on the converter model. Configure as appropriate with the SFP configurator.
